

Celebrating SUCCESS at Edmonton County School

CELEBRATING SUCCESS IN THE INCLUSION FACULTY

Charlie Larwill has completed an outstanding research project on David Fincher for Media Studies. This was submitted long before the final deadline and is easily of Distinction Star quality.

MY IDEA OF PROFESSIONALISM IS PROBABLY A LOT OF PEOPLE'S IDEA OF OBSESSIVE-DAVID FINCHER

Charlie Larwill

Well done Charlie!

Since the start of the school year **Barbara Rozek** (CM5) has given up her time each week in order to translate a Maths glossary into Polish. A few years ago, the British Council produced Maths glossaries in a number of other languages in order to help those students who are learning English. Unfortunately they did not make a Polish version.

Thanks to Barbara's hard work, excellent Maths and English knowledge she will eventually have her very own Polish-English Maths glossary. This has not only been a fantastic chance for Barbara to develop her own translation skills, but the high quality resource will also be in place to help any Polish speaking students.

Well done, Barbara!
